BigCommerce Announces Second Quarter 2022 Financial Results

*Second Quarter Total Revenue of \$68.2 Million, an Increase of 39% Versus Prior Year;
Total ARR of \$296.0 Million, an Increase of 41% Versus Prior Year*

AUSTIN, Texas – August 4, 2022 – BigCommerce Holdings, Inc. (“BigCommerce”) (Nasdaq: BIGC), a leading Open SaaS ecommerce platform for fast-growing and established B2C and B2B brands, today announced financial results for its second quarter ended June 30, 2022.

“Our overall growth continued at a strong pace in the second quarter, and equally encouraging is the external recognition we are gaining as the world’s most modern enterprise ecommerce platform,” said Brent Bellm, CEO at BigCommerce. “Our ARR from enterprise accounts grew 68% year-over-year, and enterprise ARR as a percentage of total ARR was 70%, compared to 59% a year ago. In addition, we delivered the biggest sequential growth in subscription ARR in our history, excluding the quarter of the Feedomics acquisition. We are landing bigger deals with bigger merchants and remain on a solid path toward long-term growth.”

Second Quarter Financial Highlights:

- Total revenue was \$68.2 million, up 39% compared to the second quarter of 2021.
- Total annual revenue run-rate (ARR) as of June 30, 2022 was \$296.0 million, up 41% compared to June 30, 2021.
- Subscription revenue was \$51.3 million, up 51% compared to the second quarter of 2021.
- Subscription ARR as of June 30, 2022 was \$225.8 million, up 48% compared to June 30, 2021.
- Partner and services revenue was \$16.9 million, up 12% compared to June 30, 2021.
- ARR from accounts with at least one enterprise plan (“Enterprise Accounts”) was \$206.6 million as of June 30, 2022, up 68% from June 30, 2021.
- ARR from Enterprise Accounts as a percent of total ARR was 70% as of June 30, 2022, compared to 59% as of June 30, 2021.
- GAAP gross margin was 75%, compared to 79% in the second quarter of 2021. Non-GAAP gross margin was 77%, compared to 80% in the second quarter of 2021.

Second Quarter Financials:

Other Key Business Metrics

- Number of enterprise accounts was 5,418, up 38% compared to the second quarter of 2021.
- Average revenue per account (ARPA) of enterprise accounts was \$38,133, up 22% compared to the second quarter of 2021.
- Revenue in the Americas grew by 41% compared to the second quarter of 2021.
- Revenue in EMEA grew by 42% and revenue in APAC grew by 18% compared to the second quarter of 2021.

Operating Income/(Loss)

- GAAP operating loss was (\$39.1) million, compared to (\$12.3) million in the second quarter of 2021.
- Non-GAAP operating loss was (\$13.7) million, compared to (\$4.2) million in the second quarter of 2021.

Net Income/(Loss) and Earnings Per Share

- GAAP net loss was (\$39.6) million, compared to (\$12.2) million in the second quarter of 2021.
- Non-GAAP net loss was (\$14.1) million or (21%) of total revenue, compared to (\$4.2) million or (9%) of total revenue in the second quarter of 2021.
- GAAP net loss per share was (\$0.54) based on 73.1 million weighted-average shares of common stock outstanding, compared to (\$0.17) based on 70.6 million weighted-average shares of common stock outstanding in the second quarter of 2021.
- Non-GAAP net loss per share was (\$0.19) based on 73.1 million weighted-average shares of common stock outstanding, compared to (\$0.06) based on 70.6 million weighted-average shares of common stock outstanding in the second quarter of 2021.

- For the six months ended June 30, 2022, free cash flow was (\$39.3) million, compared to (\$19.1) million for the same period in 2021.

Business Highlights:

- **Corporate Highlights:**
 - We launched our formal European presence in Austria, Denmark, Norway and Sweden, and our Latin American presence in Peru. With its latest expansions and fully localized tech and agency partner ecosystem, BigCommerce will enable merchants of all sizes and complexities to build and scale their online businesses to deliver seamless shopping experiences to local and cross-border customers and drive revenue.

- We received high honors as a top solution in both the 2022 Paradigm B2B Combine (Midmarket Edition) and 2022 Paradigm B2B Combine (Enterprise Edition) with 22 out of 24 total medals, surpassing previous analyst evaluations for the third consecutive year. BigCommerce exceeded last year's analyst evaluations by six medals and was awarded an exceptional rating (Gold) for Total Cost of Ownership and Partner Ecosystem.
- We were named a Strong Performer by Forrester Research in both *The Forrester Wave™: B2C Commerce Solutions, Q2 2022* and *The Forrester Wave™: B2B Commerce Solutions, Q2 2022* reports. BigCommerce received the highest possible score in 11 criteria in the *Forrester Wave™* B2C evaluation: Role-based Access Management, Customer Success and Support, Promotions Management, Practitioner UX, Architecture, Extensibility and Integration Tools, Product Vision, Performance, Innovation Roadmap, Partner Ecosystem and Commercial Model.
- We were honored with the Retail Global Vendors in Partnership (VIP) Award for 2022 Australian Solution Provider of the Year. BigCommerce was recognized for its achievement in excellent customer and employee culture, and how it translates to great business results.
- **Product Highlights:** Just a few months after launching Multi-Storefront Functionality (MSF) for new merchants, we expanded availability for all enterprise stores. With Multi-Storefront, merchants can create multiple unique storefronts within a single store. These storefronts can be powered by BigCommerce's native Stencil framework or by a third-party, headless solution such as Next.js, Bloomreach, Contentstack, Contentful, WordPress and others. Multi-storefront empowers merchants that want to manage multiple brands, sell into multiple customer segments, and/or sell into multiple regions.
- **Merchant Highlights:** We continued to add new enterprise merchants to our platform in the second quarter. **Mountain Equipment Company**, Canada's largest supplier of outdoor gear, launched its headless integration using BigCommerce checkout to support storefronts in English and French. **Well Pharmacy**, one of the UK's largest pharmacies, is now selling over-the-counter and prescription medications on its BigCommerce store, leveraging our Open SaaS and headless capabilities. Australian motorcycle helmet brand **Forcite Helmets** is leveraging headless to create its beautifully designed storefront. **Lifetime Brands**, a leading global designer, developer and marketer of a wide range of household products from KitchenAid, Farberware and other brands, launched a new store using B2B Edition. **Tile Warehouse**, a subsidiary of major UK tile brand Topps Tiles, launched a pop-up storefront to sell clearance tiles directly to consumers, leveraging a fulfillment partner to pull through real-time inventories and providing custom URLs for product categories and attributes. Finally **Zumnorde**, the popular German shoe retailer, turned to BigCommerce to internationalize and relaunch its web shop on a modern platform that doesn't require constant upkeep and that can be customized to provide an incredible customer experience.

- **Partner Highlights:** We partnered with London-based dropshipping marketplace, Avasam to launch its new integration, Click2Launch, utilizing our Commerce-as-a-Service capabilities. The integration empowers online entrepreneurs and early startup businesses to create a fully functioning, product-stocked, sales-ready ecommerce store in a few easy steps and helps remove the complexity barrier for aspiring entrepreneurs seeking to start their own online businesses by rapidly selecting the category of products to sell, and automatically build and populate a customized webstore.

Q3 and 2022 Financial Outlook:

For the third quarter of 2022, the Company currently expects:

- Total revenue between \$68.3 million to \$71.2 million, implying an organic year-over-year growth rate of 15% to 20% with revenue from Feedonomics in the base period.
- Non-GAAP operating loss is expected to be between \$14.4 million to \$16.4 million.

For the full year 2022, the Company currently expects:

- Total revenue between \$277.0 million and \$282.9 million, translating into a year-over-year growth rate of 26% and 29%.
- Non-GAAP operating loss between \$48.9 million and \$52.9 million.

The Company's third quarter and 2022 financial outlook is based on a number of assumptions that are subject to change and many of which are outside the Company's control. If actual results vary from these assumptions, the Company's expectations may change. There can be no assurance that the Company will achieve these results.

The Company does not provide guidance for operating loss, the most directly comparable GAAP measure to Non-GAAP operating loss, and similarly cannot provide a reconciliation between its forecasted Non-GAAP operating loss and Non-GAAP net loss per share and these comparable GAAP measures without unreasonable effort due to the unavailability of reliable estimates for certain items. These items are not within the Company's control and may vary greatly between periods and could significantly impact future financial results.

Forward-Looking Statements

This press release contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. In some cases, you can identify forward-looking statements by terms such as "anticipate," "believe," "estimate," "expect," "intend," "outlook," "may," "might," "plan," "project," "will," "would," "should," "could," "can," "predict," "potential," "strategy," "target," "explore," "continue," or the negative of these terms, and similar expressions intended to identify forward-looking statements. However, not all forward-looking statements contain these identifying words. These statements may relate to our market size and growth strategy, our estimated and projected costs, margins, revenue, expenditures and customer and financial growth rates, our Q3 and 2022 financial outlook, our plans and objectives for future operations, growth, initiatives or strategies. By their nature, these statements are subject to numerous uncertainties and risks, including factors beyond our control, that could cause actual results, performance or achievement to differ materially and adversely from those anticipated or implied in the forward-looking statements. These assumptions, uncertainties and risks include that, among others, our business would be harmed by any decline in new customers, renewals or upgrades, our limited operating history makes it difficult to evaluate our prospects and future results of operations, we operate in competitive markets, we may not be able to sustain our revenue growth rate in the future, our business would be harmed by any significant interruptions, delays or outages in services from our platform or certain social media platforms, and a cybersecurity-related attack, significant data breach or disruption of the information technology systems or networks could negatively affect our business. Additional risks and uncertainties that could cause actual outcomes and results to differ materially from those contemplated by the forward-looking statements are included under the caption "Risk Factors" and elsewhere in our filings with the Securities and Exchange Commission (the "SEC"), including our Annual Report on Form 10-K for the year ended December 31, 2021 filed with the SEC on March 1, 2022, our Quarterly Report on Form 10-Q filed with the SEC on

May 4, 2022, and the future quarterly and current reports that we file with the SEC. Forward-looking statements speak only as of the date the statements are made and are based on information available to BigCommerce at the time those statements are made and/or management's good faith belief as of that time with respect to future events. BigCommerce assumes no obligation to update forward-looking statements to reflect events or circumstances after the date they were made, except as required by law.

Use of Non-GAAP Financial Measures

We have provided in this press release certain financial information that has not been prepared in accordance with generally accepted accounting principles in the United States ("GAAP"). Our management uses these Non-GAAP financial measures internally in analyzing our financial results and believes that use of these Non-GAAP financial measures is useful to investors as an additional tool to evaluate ongoing operating results and trends and in comparing our financial results with other companies in our industry, many of which present similar Non-GAAP financial measures. Non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable financial measures prepared in accordance with GAAP and should be read only in conjunction with our consolidated financial statements prepared in accordance with GAAP. A reconciliation of our historical Non-GAAP financial measures to the most directly comparable GAAP measures has been provided in the financial statement tables included in this press release, and investors are encouraged to review these reconciliations.

Annual Revenue Run-Rate (ARR)

We calculate annual revenue run-rate ("ARR") at the end of each month as the sum of: (1) contractual monthly recurring revenue at the end of the period, which includes platform subscription fees, invoiced growth adjustments, feed management subscription fees, recurring professional services revenue, and other recurring revenue, multiplied by twelve to prospectively annualize recurring revenue, and (2) the sum of the trailing twelve-month non-recurring and variable revenue, which includes one-time partner integrations, one-time fees, payments revenue share, and any other revenue that is non-recurring and variable.

Subscription ARR

We calculate subscription annual revenue run-rate ("ARR") at the end of each month as contractual monthly recurring revenue at the end of the period, which includes platform subscription fees, invoiced growth adjustments, feed management subscription fees, recurring professional services revenue, and other recurring revenue, multiplied by twelve to prospectively annualize recurring revenue.

Enterprise Account Metrics

To measure the effectiveness of our ability to execute against our growth strategy, particularly within the mid-market and enterprise business segments, we calculate ARR attributable to Enterprise Accounts. We define Enterprise Accounts as accounts with at least one unique Enterprise plan subscription or an enterprise level feed management subscription (collectively "Enterprise Accounts"). These accounts may have more than one Enterprise plan or a combination of Enterprise plans and Essentials plans.

Average Revenue Per Account

We calculate average revenue per account (ARPA) for accounts above the ACV threshold at the end of a period by including customer-billed revenue and an allocation of partner and services revenue, where applicable. We allocate partner revenue, where applicable, primarily based on each customer's share of GMV processed through that partner's solution. For partner revenue that is not directly linked to customer usage of a partner's solution, we allocate such revenue based on each customer's share of total platform GMV. Each account's partner revenue allocation is calculated by taking the account's trailing twelve-month partner revenue, then dividing by twelve to create a monthly average to apply to the applicable period in order to normalize ARPA for seasonality.

Adjusted EBITDA

We define Adjusted EBITDA as our net loss, excluding the impact of stock-based compensation expense and related payroll tax expense, third party acquisition-related costs, and other acquisition related expenses, including contingent compensation arrangements entered into in connection with acquisitions, depreciation and amortization expense, interest income, interest expense, changes in fair value of financial instruments, and our provision for income taxes. The most directly comparable GAAP measure is net loss.

Non-GAAP Operating Loss

We define Non-GAAP Operating Loss as our GAAP Loss from operations, excluding the impact of stock-based compensation expense and related payroll tax expense, third party acquisition-related costs, and other acquisition related expenses, including contingent compensation arrangements entered into in connection with acquisitions and amortization of acquisition-related intangible assets. The most directly comparable GAAP measure is our loss from operations.

Non-GAAP Net Loss

We define Non-GAAP Net Loss as our GAAP net loss, excluding the impact of stock-based compensation expense and related payroll tax expense, third party acquisition-related costs, and other acquisition related expenses, including contingent compensation arrangements entered into in connection with acquisitions, amortization of acquisition-related intangible assets and changes in fair value of financial instruments. The most directly comparable GAAP measure is our net loss.

Non-GAAP Net Loss per Share

We define Non-GAAP Net Loss per Share as our Non-GAAP Net Loss, defined above, divided by our basic and diluted GAAP weighted average shares outstanding. The most directly comparable GAAP measure is our net loss per share.

Free Cash Flow

We define Free Cash flow as our GAAP cash flow from operating activities plus our GAAP purchases of property and equipment (Capital Expenditures). The most directly comparable GAAP measure is our cash flow from operating activities.
